The tracking error i.e. the annualized standard deviation of the difference in daily returns between the underlying index and the NAV of the scheme based on past one year rolling data shall not exceed 2%. In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any. 	<p>money market instruments at issuer level i.e., downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA). The Investment Committee may extend the deployment timeline by up to 30 business days and will provide recommendations to ensure timely deployment in the future. If the funds are not deployed within the mandated and extended timelines, the AMC shall be prohibited from receiving new inflows into the scheme until the deployment aligns with the asset allocation. Additionally, the AMC will not charge any exit load on investors who choose to leave the scheme after 60 business days of non-compliance with the allocation. The AMC shall notify all NFO investors of their option to exit the scheme without exit load via email, SMS, or similar communication. Furthermore, any deviations shall be reported to the Trustees at each stage of the process.</p> <p>Note: As an index fund, the scheme seeks to track/replicate the underlying index i.e. Nifty500 Shariah Index. With respect to the residual portion of up to 5% of the scheme's assets (not deployed in index constituents) for investment in Cash and Other Shariah compliant instruments, the scheme may follow certain internal norms, such as issuer level limit or overall counter-party limit, subject to the investment restrictions prescribed under the SEBI (Mutual Funds) Regulations, 1996, and the circulars issued thereunder.</p>
Investment Strategy	<p>Investment focus and asset allocation strategy The scheme is a low-cost index Fund which tracks the Nifty500 Shariah Index passively. The scheme endeavors to achieve return equivalent to underlying index while minimizing tracking error.</p> <p>UTI Nifty500 Shariah Index Fund will be managed passively with investments in stocks comprising the Underlying Index subject to tracking error. The investment strategy would revolve around reducing the tracking error to the least possible through regular rebalancing of the portfolio, taking into account the change in weights of stocks in the Index as well as the incremental collections/redemptions in the Scheme.</p> <p>A part of the funds may be invested in Cash and Other Shariah compliant instruments, to meet liquidity requirements. Since the Scheme is index fund, it will only invest in securities constituting the Underlying Index.</p> <p>As part of the Fund Management process, the Scheme may use derivative instruments such as index futures and options, or any other derivative instruments that are permissible or may be permissible in future under applicable regulations. The Scheme intends to use derivatives for the purpose of portfolio balancing.</p>
Risk Profile of the Scheme	<p>Mutual Fund investments are subject to market risks. Please read the SID carefully for details on risk factors before investment.</p> <p>Past performance of the Sponsors / AMC / Mutual Fund does not guarantee future performance of the scheme.</p> <p>Safety net or guarantee provided – UTI Nifty500 Shariah Index Fund is not a guaranteed or assured return scheme.</p> <p>1. Scheme specific risks factors</p>

	<p>a. Investors may note that AMC's/Fund Manager's investment decisions may not always be profitable, even though it is intended to generate capital appreciation and returns by passively investing in equity/ equity related securities.</p> <p>b. The value of the investments in the scheme, may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or policies of any appropriate authority and other political and economic developments and closure of stock exchanges which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. Consequently, the NAV of the Units of the Scheme may fluctuate and can go up or down.</p> <p>c. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the equity and equity related investments made by the Scheme which could cause the scheme to miss certain investment opportunities. Different segments of the financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances leading to delays in receipt of proceeds from sale of securities. The inability of the Scheme to make intended securities purchases due to settlement problems could also cause the Scheme to miss certain investment opportunities. By the same rationale, the inability to sell securities held in a Scheme's portfolio due to the absence of a well-developed and liquid secondary market for debt securities would result, at times, in potential losses to the Scheme, in case of a subsequent decline in the value of securities held in a Scheme's portfolio.</p> <p>d. The Scheme may use various derivative products as permitted by the Regulations. Use of derivatives requires an understanding of not only the underlying instrument but also of the derivative itself. Other risks include, the risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices. Usage of derivatives will expose the Scheme to certain risks inherent to such derivatives.</p> <p>e. Portfolio Concentration Risk: Index Funds being a passive investment carries lesser risk as compared to active fund management. The portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus there is no additional element of volatility or stock concentration on account of fund manager's decisions.</p> <p>f. Tracking Error and Tracking Difference Risk The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the Scheme, corporate actions, cash balance and changes to the underlying index and regulatory restrictions, lack of liquidity which may result in Tracking Error. Hence it may affect AMC's ability to achieve close correlation with the underlying index of the Scheme. The Scheme's returns may therefore deviate from its underlying index. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the Scheme. "Tracking difference" is the annualized difference of daily returns between the index and the NAV of the Scheme.</p> <p>The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible within the limits as prescribed in provision no. 3.6.3 of para 3.6 under Chapter 3 of SEBI Master Circular for Mutual Funds. There can be no assurance or guarantee that the Scheme will achieve any particular level of Tracking Error relative to performance of the underlying Index.</p> <p>g. Passive Investments As the scheme proposes to invest not less than 95% of the net assets in the securities of the underlying Index, the scheme will not be actively managed. The Scheme may be affected by a general decline in the Indian markets relating to its Underlying Index. The Scheme invests in the securities included in its underlying index regardless of their investment merit. The AMC does not attempt to individually select securities or to take defensive positions in</p>

Portfolio Turnover policy</div><div>The scheme is a passively managed fund and therefore the portfolio turnover will be confined only to rebalancing of the portfolio on account of new subscriptions, redemptions and changes in composition of the underlying index.</div></div> <div><div>2. Risk factors associated with Creation of Segregated Portfolio</div><div><div>a. Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer.</div><div>b. Security comprises of segregated portfolio may not realise any value.</div><div>c. Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.</div></div></div> <div><div>3. Risks Associated with scheme</div><div><div>a. UTI Nifty500 Shariah Index Fund is a passively managed index fund i.e. the amount collected under the scheme is invested in securities of companies comprising the underlying index in the same weightages as they have in the underlying index.</div><div>b. Guidelines for Processing of transactions received under Regular Plan with invalid ARN

Transactions received in Regular Plan with Invalid ARN to be processed in Direct Plan of the same Scheme (even if reported in Regular Plan), applying the below logic:

Transaction Type	Primary ARN			SUB distributor ARN		EUIN*	Execution Only Mentioned	Regular Plan / Direct Plan
	Valid	Invalid	Empanelled	Valid	Invalid	Valid	Yes	
Lump Sum /Registration	Y		Y					Regular
	Y		N	Not Applicable				Direct
	Y		Y	N.A.	N.A.	N.A.	N	Regular
	Y		Y	Y		Y		Regular
		Y						Direct
	Y		Y	Y			Y	Regular
	Y		Y		Y			Direct
Trigger	Y			Not Applicable				Regular
		Y		Not Applicable				Direct

Note:

- 1) *If the EUIN is invalid/missing, the transactions shall be processed in Regular plan, and the distributor/investor shall be given 30 day period from the date of the transaction for remediation of the EUIN. In such cases, the investor to be advised to either provide a different EUIN linked to the ARN who would be engaged in servicing the investor OR switch to Direct Plan. The commission shall not be paid to the ARN holder if the Switch transaction does not happen, or fresh EUIN is not provided within 30 days. The commission may be paid if the fresh EUIN is provided by client within 30 days.
- 2) For SIP & STP facilities, the ARN validity shall be verified / validated at the time of registration. For instances where the registration details not available in RTA records the transaction shall be treated as lumpsum purchase for validations. Distributors must reconcile the active / inactive SIPs with RTA's at regular intervals
- 3) SIPs registered under ARN of deceased to continue till end of SIP registration period or investor's request as per AMFI guidelines; No fresh transactions or SIPs to be booked under the ARN of deceased MFD post cancellation of ARN at AMFI.
- 4) Only Sub-distributor's ARN with valid "ARN" values in the transaction will be considered for validation of Sub- distributor ARN for all types of transactions (lumpsum/SIP/STP).
- 5) If the ARN is invalid as on date of SIP / STP registration, such registration and future transactions thereunder will be processed under DIRECT plan.
- 6) Transactions other than the physical mode which are found to be not in order basis above matrix, will be rejected at the time of upload / submission for following reasons:
 - a. To give opportunity for the intermediary / platform to rectify details before submitting transactions or to report transactions as DIRECT.
 - b. If these transactions are accepted and processed as DIRECT, the intermediary placing the transaction will not be receiving reverse feeds and hence will not be able to reconcile.

Since the validation cannot be carried out at the time of acceptance or transactions received in physical form, the same will be done at the time of processing the transaction, and if found to be invalid, the transaction will be processed under DIRECT.

	<p>7) Transactions received from the stock exchange platforms in Demat mode with invalid ARN shall be rejected instead of processing in Direct Plan for following reasons</p> <p>a. Settlement of units will fail at clearing corporation due to mismatch of ISIN.</p> <p>b. If the RTA processes the transaction in DIRECT Plan, the AMC will face issues with corporate action wherein the clearing corporation will not be able to reconcile and credit the units.</p> <p>c. The distributor/broker will not be able to download the reverse feed/mail back report for the transactions reported by the respective distributor in case if we process under Direct Plan.</p> <p>8) Dividend reinvestment transactions, being a corporate action, will be excluded from the above validation</p> <p>Scheme characteristics of Direct Plan: Scheme characteristics such as Investment Objective, Asset Allocation Pattern, Investment Strategy, risk factors, facilities offered and terms and conditions including load structure will be the same for the Regular Plan and the Direct Plan except that:</p> <p>(i) No exit load shall be levied in case of switches from Direct Plan to Regular Plan and Regular Plan to Direct Plan.</p> <p>(ii) Investments through systematic routes: In case of Systematic Investment Plan (SIP)/ Systematic Transfer Plan (STP), registered without any distributor code under the Regular Plan of all Schemes, instalments falling on or after the January 1, 2013 will automatically be processed under the Direct Plan.</p> <p>(iii) Minimum Investment amount under the Direct Plan:</p> <p>In case of already existing investments under the Regular Plan, if the investor wants to further invest in the Direct Plan he/she will be required to invest the minimum investment amount of the scheme, as applicable for that Scheme/Plan/Option /facility etc. However, this minimum investment amount requirement is not applicable in case of switchover from Regular Plan to Direct Plan or vice versa under the same Scheme and same Option</p>
