Rebalancing of the portfolio will be done when the asset allocation falls outside the range given above. If the exposure falls outside the above mentioned asset allocation pattern, it will be restored within 7 calendar days or as specified by SEBI from time to time.

**Portfolio Rebalancing / Replication Norms:** As per provision no. 3.6.7 under Chapter 3 of SEBI Master Circular for Mutual Funds, in case of change in constituents of the index due to periodic review, the portfolio of Index Funds be rebalanced within 7 calendar days or as specified by SEBI from time to time.

The creation of segregated portfolio shall be optional and at the discretion of UTI AMC.

In terms of SEBI Circular dated February 27, 2025, the AMC shall deploy the funds raised in an NFO within 30 business days from the date of unit allotment. If the AMC is unable to deploy the funds within the 30-business-day period, a written explanation, including details of the deployment efforts, must be presented to the AMC's Investment Committee. The Investment Committee may extend the deployment timeline by up to 30 business days and will provide recommendations to ensure timely deployment in the future. If the funds are not deployed within the mandated and extended timelines, the AMC shall be prohibited from receiving new inflows into the scheme until the deployment aligns with the asset allocation. Additionally, the AMC will not charge any exit load on investors who choose to leave the scheme after 60 business days of non-compliance with the allocation. The AMC shall notify all NFO investors of their option to exit the scheme without exit

load via email, SMS, or similar communication. Furthermore, any deviations shall be reported to the Trustees at each stage of the process.

**Note:** As an index fund, the scheme seeks to track/replicate the underlying index i.e. Nifty500 Shariah Index. With respect to the residual portion of up to 5% of the scheme's assets (not deployed in index constituents) for investment in Cash and Other Shariah compliant instruments, the scheme may follow certain internal norms, such as issuer level limit or overall counter-party limit, subject to the investment restrictions prescribed under the SEBI (Mutual Funds) Regulations, 1996, and the circulars issued thereunder.

The Scheme may take an exposure to equity derivatives of constituents of the underlying index for short duration when securities of the index are unavailable, insufficient or for rebalancing at the time of change in index or in case of corporate actions, as permitted subject to rebalancing within 7 days.
- Derivatives traded on recognized stock exchanges, only portfolio balancing with underlying as securities.
- Cash and Other Shariah compliant instruments
- Such other securities/assets as may be permitted by the SEBI from time to time subject to Regulatory approval if any.

## **C. WHAT ARE THE INVESTMENT STRATEGIES?**

### **Investment focus and asset allocation strategy**

The scheme is a low-cost index Fund which tracks the Nifty500 Shariah Index passively. The scheme endeavors to achieve return equivalent to underlying index while minimizing tracking error.

UTI Nifty500 Shariah Index Fund will be managed passively with investments in stocks comprising the Underlying Index subject to tracking error. The investment strategy would revolve around reducing the tracking error to the least possible through regular rebalancing of the portfolio, taking into account the change in weights of stocks in the Index as well as the incremental collections/redemptions in the Scheme.

A part of the funds may be invested in Cash and Other Shariah compliant instruments to meet liquidity requirements. Since the Scheme is index fund, it will only invest in securities constituting the Underlying Index.

As part of the Fund Management process, the Scheme may use derivative instruments such as index futures and options, or any other derivative instruments that are permissible or may be permissible in future under applicable regulations. The Scheme intends to use derivatives for the purpose of portfolio balancing.

## **D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?**

The performance of the Scheme will be benchmarked against Nifty500 Shariah TRI as the scheme tracks the Nifty500 Shariah Index passively. The composition of the aforesaid benchmark is such that it is most suited for comparing the performance of the scheme

The benchmark selected is in line with provision for selection of benchmark "For Index Funds", as prescribed under clause 1.9.2 of para 1.9 under Chapter 1 of SEBI Master Circular for Mutual Funds.

#### **G. HOW HAS THE SCHEME PERFORMED?**

This scheme is a new scheme and does not have any performance track record

### Part III – OTHER DETAILS

#### A. COMPUTATION OF NAV

- (a) The Net Asset Value (NAV) of the scheme shall be calculated by determining the value of the scheme's assets and subtracting therefrom the liabilities of the scheme taking into consideration the accruals and provisions. NAV shall be declared separately for the different Plans and Options of the scheme.
- (b) The NAV per unit of the scheme shall be calculated by dividing the NAV of the scheme by the total number of units issued and outstanding on the date of calculation under the scheme. The NAV shall be rounded off upto four decimal places for the scheme.

NAV of the Units under the Scheme shall be calculated as shown below:-

$$\text{NAV} = \frac{\text{Market or Fair Value of Scheme's investments} + \text{Current Assets} - \text{Current Liabilities and Provision}}{\text{No of Units outstanding under Scheme on the Valuation Date}}$$

The NAV under the Scheme would be rounded off to 4 decimals and Units will be allotted upto three decimal places or such other formula as may be prescribed by SEBI from time to time.

#### Methodology for Calculation of Sale and Re-purchase price of the units of mutual fund scheme

##### i) In case of Purchase of mutual fund units

As per existing regulation, no entry load is charged with respect to applications for purchase / additional purchase of mutual fund units. Therefore, Computation of Sale Price is as below:

NAV	10.00
Entry Load	Not Applicable
Sale Price	10.00

This also means, Sale Price = NAV as on date of investment

##### ii) Redemption/ Repurchase of mutual fund units

In case of redemption, repurchase price is calculated as below

Repurchase Price = NAV as on date of redemption - exit load (if applicable)

##### iii) Illustration showing how repurchase price is calculated under 2 different scenarios-

**Amount Invested- Rs.10,000/-**

**Date of Investment- 1st April 2022**

**NAV as on date of investment- Rs.10/- per unit**

**Exit load- Nil**

No of units allotted at the time of purchase

$$\text{Amount invested} = \frac{\text{NAV of the scheme on the date of investment}}{=}$$

$$= 10,000 / 10 = 1000 \text{ units}$$

Particulars	Redemption
Date of Redemption	After 31st March 2023
NAV as on date of redemption	Rs.12
Applicable Exit load	Nil
Repurchase Price (NAV as on date of redemption-Exit load)	Rs.12- (Nil)
Repurchase Price on date of Redemption	Rs.12
Redemption Amount payable to investors (no of units allotted x Repurchase Price)	Rs.12 x 1000 Rs.12,000/-

**Note -** This is only for illustration purpose. Actual Exit load charged in the Scheme may vary.

The repurchase price shall not be lower than 95% of the NAV. For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to SAI

The above mentioned example does not take into consideration any applicable statutory levies and taxes.

- (c) A valuation day is a day other than (i) Saturday and Sunday (ii) a day on which both the stock exchanges (BSE and NSE) and the banks in Mumbai are closed (iii) A day on which the purchase and redemption of units is suspended. If any business day in UTI AMC, Mumbai is not a valuation day as defined above then the NAV will be calculated on the next valuation day and the same will be applicable for the previous business day's transactions including all intervening holidays.
- (d) The Mutual Fund shall declare the Net asset value separately for both the Plans by 11 p.m. on every business day on the website of UTI Mutual Fund, [www.utimf.com](http://www.utimf.com) and on AMFI's website [www.amfiindia.com](http://www.amfiindia.com). The Mutual Fund shall prominently disclose the NAVs of the scheme under a separate head on the website and on the website of Association of Mutual Funds in India (AMFI). Further, the Mutual Fund will extend facility of sending latest available NAVs to unit holders through SMS, upon receiving a specific request in this regard.

## SECTION II

### I. INTRODUCTION

#### A. DEFINITIONS/INTERPRETATION –

Please refer the below mentioned link for Definitions/ Interpretations:  
<https://www.utimf.com/downloads/data-related-to-sid>

#### B. RISK FACTORS

##### **Standard Risk Factors:**

1. Investment in Mutual Fund scheme Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
2. As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down.
3. Past performance of the Sponsors/AMC/Mutual Fund does not guarantee future performance of the scheme.
4. The name of the scheme does not in any manner indicate either the quality of the scheme or its future prospects and returns.
5. The sponsors are not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of Rs.10,000/- made by them towards setting up the Fund.
6. The present scheme is not guaranteed or assured return scheme.
7. Statements/Observations made in the Scheme Information Document are subject to the laws of the land as they exist at any relevant point of time.
8. Growth, appreciation, Income Distribution cum Capital Withdrawal (IDCW) and income, if any, referred to in this Scheme Information Document are subject to the tax laws and other fiscal enactments as they exist from time to time.
9. The NAVs of the Scheme may be affected by changes in the general markets conditions, factors and forces affecting capital market, in particular, level of interest rates, various markets related factors and trading volumes, settlement periods and transfer procedures.
10. **Trading in equity derivatives involves certain specific risks like:**
  - a. Credit Risk: This is the risk of default by the counter party. This is usually to the extent of difference between actual position and contracted position. This risk is substantially mitigated where derivative transactions happen through clearing corporation.
  - b. Market Risk: Market movement may also adversely affect the pricing and settlement of derivative trades like cash trades.
  - c. Illiquidity Risk: The risk that a derivative product may not be sold or purchased at a fair price due to lack of liquidity in the market.
  - d. An exposure to derivatives can lead to losses. Success of dealing in derivatives depends on the ability of the Fund Manager to correctly assess the future market movement and in the event of incorrect assessment, if any, performance of the scheme could be lower.
  - e. Participating in derivatives is a highly specialized activity and entails greater than ordinary investment risks. Notwithstanding such derivatives being used for limited purpose of portfolio balancing, the overall market in these segments could be highly speculative due to action of other participants in the market.
  - f. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be

pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

g. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

11. In the event of receipt of inordinately large number of redemption requests or a restructuring of a Schemes' portfolio, there may be delays in the redemption of units.

12. Different types of securities in which the scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, a scheme's risk may increase or decrease depending upon its investment pattern.

13. **Scheme specific risks factors**

- a. Investors may note that AMC's/Fund Manager's investment decisions may not always be profitable, even though it is intended to generate capital appreciation and returns by passively investing in equity/equity related securities.
- b. The value of the investments in the scheme, may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or policies of any appropriate authority and other political and economic developments and closure of stock exchanges which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. Consequently, the NAV of the Units of the Scheme may fluctuate and can go up or down.
- c. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the equity and equity related investments made by the Scheme which could cause the scheme to miss certain investment opportunities. Different segments of the financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances leading to delays in receipt of proceeds from sale of securities. The inability of the Scheme to make intended securities purchases due to settlement problems could also cause the Scheme to miss certain investment opportunities. By the same rationale, the inability to sell securities held in a Scheme's portfolio due to the absence of a well-developed and liquid secondary market for debt securities would result, at times, in potential losses to the Scheme, in case of a subsequent decline in the value of securities held in a Scheme's portfolio.
- d. The Scheme may use various derivative products as permitted by the Regulations. Use of derivatives requires an understanding of not only the underlying instrument but also of the derivative itself. Other risks include, the risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices. Usage of derivatives will expose the Scheme to certain risks inherent to such derivatives.
- e. **Portfolio Concentration Risk:**  
Index Funds being a passive investment carries lesser risk as compared to active fund management. The portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus there is no additional element of volatility or stock concentration on account of fund manager's decisions.
- f. **Tracking Error and Tracking Difference Risk**  
The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the Scheme, corporate actions, cash balance and changes to the underlying index and regulatory restrictions, lack of liquidity which may result in Tracking Error. Hence it may affect AMC's ability to achieve close correlation with the underlying index of the Scheme. The Scheme's returns may therefore deviate from its underlying index. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the Scheme. "Tracking difference" is the annualized difference of daily returns between the index and the NAV of the Scheme.  
The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible within the limits as prescribed in provision no. 3.6.3 of para 3.6 under Chapter 3 of SEBI Master Circular for Mutual Funds. There can be no assurance or guarantee that the Scheme will achieve any particular level of Tracking Error relative to performance of the underlying Index.
- g. **Passive Investments**  
As the scheme proposes to invest not less than 95% of the net assets in the securities of the underlying Index, the scheme will not be actively managed. The Scheme may be affected by a general decline

in the Indian markets relating to its Underlying Index. The Scheme invests in the securities included in its underlying index regardless of their investment merit. The AMC does not attempt to individually select securities or to take defensive positions in declining markets.

**h. Portfolio Turnover policy**

The scheme is a passively managed fund and therefore the portfolio turnover will be confined only to rebalancing of the portfolio on account of new subscriptions, redemptions and changes in composition of the underlying index.

**14. Risk factors associated with Creation of Segregated Portfolio –**

- a. Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer.
- b. Security comprises of segregated portfolio may not realise any value.
- c. Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

**15. Risks Associated with scheme**

- a. UTI Nifty500 Shariah Index Fund is a passively managed index fund i.e. the amount collected under the scheme is invested in securities of companies comprising the underlying index in the same weightages as they have in the underlying index.
- b. The composition of the underlying index is subject to changes that may be affected periodically by the Index Service Provider.

**16. Participating in Derivative Products:**

**Derivatives:**

A derivative instrument, broadly, is a financial contract whose payoff structure is determined by the value of an underlying security, index, interest rate etc. Thus a derivative instrument derives its value from some underlying variable.

Derivatives are further classified into:-

Futures

Options

**Futures:** A futures contract is a standardized contract between two parties where one of the parties commits to sell, and the other to buy, a stipulated quantity of a security at an agreed price on or before a given date in future.

**Options:**

An option is a derivative instrument, which gives its holder (buyer) the right but not the obligation to buy or sell the underlying security at the contracted price on or before the specified date. The purchase of an option requires an up-front payment (premium) to the seller of the option.

There are two basic types of options, call option and put option.

- (a) **Call option:** A call option gives the buyer of the option the right but not the obligation to buy a given quantity of the underlying asset, at a given price (strike price), on or before a given future date.
- (b) **Put option:** A put option gives the buyer of the option the right but not the obligation to sell a given quantity of the underlying asset, at a given price (strike price), on or before a given future date.

On expiry of a call option, if the market price of the underlying asset is lower than the strike price the call would expire unexercised. Likewise, if, on the expiry of put option, the market price of the underlying asset is higher than that of the strike price the put option will expire unexercised.

The buyer/holder of an option can make loss of not more than the option premium paid to the seller/writer but the possible gain is unlimited. On the other hand, the option seller/writer's maximum gain is limited to the option premium charged by him from the buyer/holder but can make unlimited loss.

Investment in equity derivatives of underlying securities shall be allowed in instances of portfolio rebalancing or unavailability of the securities for the scheme.

**The Mutual Fund would comply with the provisions of SEBI Circular Ref. No. DNPD/Cir-29/2005 dated September 14, 2005 and SEBI circular Ref. No. Cir/IMD/DF/11/ 2010 dated August 18, 2010 and such other amendments issued by SEBI from time to time while trading in derivatives.**

**Presently, the position limits for trading in derivatives by Mutual Fund specified by SEBI vide its circular Ref. No. DNPD/Cir-29/2005 dated September 14, 2005, circular Ref. #### **Deployment of NFO Proceeds:**

NFO proceeds will be parked in Current Account before the closure of NFO period. However, no investment management and advisory fees will be charged on funds during the NFO period. In case the minimum subscription amount is not garnered by the scheme during the NFO period, the investment of NFO proceeds shall be returned to investors, in proportion of their investments, alongwith the refund of the subscription amount.

- **REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME**

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. However, if such limit is breached during the NFO of the Scheme, the Fund will endeavour to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. In case the Scheme does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days notice to redeem his exposure over the 25% limit. Failure on the part of the said investor to redeem his exposure over the 25% limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

### C. RISK MITIGATION STRATEGIES:

The scheme may use various derivative products as permitted by the Regulations. Participating in derivatives is a highly specialized activity and entails greater than ordinary investment risks. Primarily, derivatives would be used for purpose of hedging and portfolio balancing.

The Scheme aims to replicate the performance of the Nifty500 Shariah TRI, subject to tracking error and before expenses. As a passively managed fund, the Scheme will mirror the constituents and weightings of the index. Any changes to the index composition or weights will be reflected in the Scheme's portfolio to minimize tracking deviations.

As a passive strategy, the Scheme carries lower risk compared to actively managed funds, with no additional volatility or stock concentration introduced through fund manager discretion. The portfolio's volatility and stock exposure will closely align with that of the underlying index.

The fund manager will aim to minimize cash holdings to reduce tracking error and maintain full investment in line with the index.

#### Risk Mitigation Strategy

The core of the risk management approach lies in minimizing **tracking error** by:

- Regularly rebalancing the portfolio in line with index changes.
- Efficiently managing inflows and outflows.
- Keeping cash levels minimal and aligning the portfolio promptly with the index.

Type of Risk	Mitigation Strategy
<b>Equity Market / Equity Instruments</b>	<b>Market Risk &amp; Volatility:</b> Inherent in equity schemes; minimized by investing only in index constituents.
	<b>Concentration/Sector Risk:</b> Matches the index, avoiding fund manager bias.
	<b>Liquidity Risk:</b> Some index stocks may be less liquid. The Scheme aims to maintain appropriate asset-liability matching to meet redemption demands without delay.
<b>Derivatives</b>	Derivative exposure may be taken for short durations to handle temporary unavailability of index securities, during rebalancing, or corporate actions. All such transactions will follow regulatory limits, occur via clearing corporations, and carry reduced counterparty risk.
<b>Segregated Portfolio</b>	In case of credit events, the AMC will seek to realize the segregated portfolio in the best interest of investors, as early as feasible.
<b>Tracking Error</b>	Short-term tracking deviations may occur. However, the Scheme will endeavor to maintain low tracking error by promptly rebalancing in line with index movements and managing portfolio alignment.
<b>Liquidity Risk in Extreme Conditions</b>	Under extraordinary circumstances, redemption may be restricted in accordance with the provisions of the Scheme Information Document (SID).

The AMC has necessary framework in place for risk mitigation at an enterprise level. The Risk Management division is an independent division within the organization. Risk indicators & internal limits are defined and judiciously monitored on a regular basis. There is a Board level Committee, the Risk Management Committee of the Board, which enables a dedicated focus on risk factors and the relevant risk mitigation measures.

<p><b>Details under Foreign Account Tax Compliance provisions (commonly known as FATCA) / Foreign Tax Laws and Common Reporting Standard (CRS)</b></p>	<p>FATCA is United States (US) Federal Law, aimed at prevention of tax evasion by US citizens and residents ("US persons" as defined in the applicable extant laws of the United States of America) through use of offshore accounts. FATCA provisions are part of Hiring Incentives to Restore Employment (HIRE) Act, enacted by US Legislature. Under FATCA, withholding tax may be levied on certain US source income/receipt of the Schemes of the Mutual Fund, unless they are FATCA compliant.</p> <p>FATCA obligates foreign financial institutions (FFIs), including Indian financial institutions to provide the US Internal Revenue Service (IRS) with information and to report on the accounts held by specified US Persons as well as passive NFFEs in which controlling interest is held by specified US person. The term FFI is defined widely to cover a large number of non-US based financial service providers, such as mutual funds, depository participants, brokers, custodians, as well as banks. FATCA requires enhanced due diligence processes by the FFI so as to identify US reportable accounts.</p> <p>The identification of US person will be based on one or more of following "US indicia"-</p>

	<ul style="list-style-type: none"> <li>• Identification of the Account Holder as a US citizen or resident;</li> <li>• Unambiguous indication of a US place of birth;</li> <li>• Current US mailing or residence address (including a US post office box);</li> <li>• Current US telephone number;</li> <li>• Standing instructions to transfer funds to an account maintained in USA;</li> <li>• Current effective power of attorney or signing authority granted to a person with a US address; or</li> <li>• An “in-care of” or “hold mail” address that is the sole address that the Indian Financial Institution has on the file for the Account Holder.</li> </ul> <p>FATCA due diligence will be applicable to each unit holder (including joint holders) irrespective of the country of residence/citizenship, and on being identified as reportable person/specified US person, all folios/accounts will be reported. Such information may include (not limited to) their identity, direct or indirect beneficiaries, beneficial owners and controlling persons. Unit holders will therefore be required to comply with the request of the AMC / Fund to furnish such information as and when deemed necessary by the AMC / Fund in accordance with the Applicable Laws.</p> <p>FATCA provisions are relevant not only at on-boarding stage of unit holders but also throughout the life cycle of investment with the Mutual Fund. Unit holders therefore should immediately intimate to the Fund/the AMC, any change in their status with respect to FATCA related declaration provided by them previously.</p> <p>In case unit holder / investor fails to furnish the relevant information and/or documentation in accordance with the Applicable Laws, the AMC / Fund reserves the right to reject the application or redeem the units held directly or beneficially and may also require reporting of such accounts/levy of withholding tax on payments made to investors. Prospective investors / Unit holders should consult their own advisors to understand the implications of FATCA provisions/requirements. The AMC reserves the right to change/modify the provisions mentioned at a later date.</p> <p><b>Common Reporting Standard (CRS) – The New Global Standard for Automatic Exchange of Information</b></p> <p>On similar lines as FATCA, the Organisation of Economic Development (OECD), along with the G20 countries, of which India is a member, has released a “Standard for Automatic Exchange of Financial Account Information in Tax Matters”, in order to combat the problem of offshore tax evasion and avoidance and stashing of unaccounted money abroad, requiring cooperation amongst tax authorities. The G20 and OECD countries have together developed a Common Reporting Standard (CRS) on Automatic Exchange of Information (AEOI).</p> <p>All Applicants whose country of tax residence is not India shall fill in the prescribed FATCA &amp; CRS Form.</p> <p><b>AMC reserves right to reject the application in case the applicant / investor fails to submit information /documentation for any of the above.</b></p> <p>Please refer to Instructions given in the FATCA/CRS Form before filling in the particulars and for further details relating to FATCA/CRS, refer to SEBI Circular Nos.
